

What to Bring and Food Service

What to Bring:

- **Preschool Families:** Please bring a water bottle that will be taken home each evening to be washed. Nappers and lovies must be brought in bags (labeled with child's full name) and taken home weekly to be washed.
- **Village Families:** Please bring a water bottle that will be taken home each evening to be washed and an extra change of clothes including shoes.

Food Service Next Week:

- We are not requiring parents to bring food from home. **We are continuing food service for children**
- We have discontinued child self-serving as a part of family style dining.
- We are not combining groups for meals and snack time.
 - Preschool children eat in classrooms, not in the Dining Car.
 - Village children eat in the gym with their assigned groups and in a way that exceeds the social distancing recommendations.
- We will release a monthly menu, but occasional changes may be made based on food availability.
- Our motivation to continue food service is based on:
 - our intent to maintain control of allergens.
 - our respect for what is going on in your homes – our parents do not need to be prepared to bring food from home at this juncture, unless already approved for food from home due to an allergy.
- Disposable plates and utensils will be used for food service.
- Food service refuse will be bagged and removed after each meal or snack
